

HIPAA Breach Response Plan Template

Version 1.0, Released June 17, 2011

Author: Carl N. Abramson

Legal Review: Susan A. Miller, Esq.

This document, intended for use by risk managers with the participation of information technology professionals and individuals responsible for establishing organizational-level policy, contains policy, procedure and flow chart templates that guide a Covered Entity in its design of breach of unsecured protected health information policy and procedures. This is not legal advice. This document is for information only, and is part of the MalvernGroup Breach Response Toolkit.
